児童生徒もしくは教職員とその家族に感染者等が判明した場合の判断基準

What to do if a pupil, school staff member and/or their family member is infected with COVID-19(The English version is on the back side.)

つくば市 2022年10月3日現在

1	児童生徒教職員の感染が判明 した場合	医師または保健所の指示に従 い自宅等で療養する。	医師または保健所の指示がない場合は、以下の日数を原則とし自宅等で療養する。 〇有症状者:発症日を 0 日とし 7 日間かつ症状軽快後 24 時間経過。 〇無症状者:検査日を 0 日とし 7 日間とする。ただし、 5 日目に抗原検査を行い、陰性であれば 6 日目から登校可
2	同一学級内や同一部活動内で複)数の感染者が出るなど、集団感 染が疑われる場合	複数名の陽性者や発熱者が出た場合	学級 :一定期間学級閉鎖学級 :学級閉鎖期間終了後登校可部活動:一定期間部活動停止部活動:活動停止期間終了後活動可
		多数の陽性者や発熱者が出た場合	学級(1~3年生):学級閉鎖を行った上で PCR 検査を実施 学級(4~9年生):学級閉鎖を行った上で抗原検査を実施 部活動 :活動を停止した上で抗原検査を実施 検査結果が陽性の児童生徒:「①」を参照 検査結果が陽性の児童生徒:学校からの指示により登校可、部活動可
3	特定の学級外にも感染が広がっ ていることが疑われる場合	同一学年の中で複数の学級が閉鎖になる 感染が広がっていると疑わる場合	など、学年全体に 当初閉鎖した学級が学級閉鎖解除になるなど、学年内感染状況及び感染収束傾向7 確認できれば学年閉鎖解除
		同一学校内で複数の学年が閉鎖になるな が広がっていると疑われる場合	ど、学校全体に感染 当初閉鎖した学年が学年閉鎖解除になるなど、校内感染状況及び感染収束傾向がる 認できれば休校解除
4	児童生徒教職員が濃厚接触者 となった場合	医師または保健所の指示に従い自宅行家族等同居人が陽性になった場合は、接触者と考える。ただし家庭内におい接触がない場合は該当しない。	機とする。
			で開、、機序
5	児童生徒教職員が感染の疑い のためPCR検査を受けた場合 ※感染疑い以外の検査を除く	検査結果が判明するまで自宅待機	児童生徒または教職員の検査結果が陽性だった場合 「①」を参照
			▶
6	家族が濃厚接触者等となった 場合	濃厚接触者となった家族が検査をする場合、児童生徒・教職員に症状がなければ登校・出勤可	児童生徒または教職員の家族の検査 「④」を参照 結果が陽性だった場合
			児童生徒または教職員の家族の検査 通常に登校・出勤 結果が陰性だった場合
		家族が検査をしない場合は、児童生 徒の症状がなければ経過観察をしな がら登校・出勤可	引き続き健康観察
7	児童生徒教職員に発熱など の状等がみられる場合 ※コロナの疑いがないもの は除く	医療機関等でPCR検査を受ける場合	▶ 「⑤」を参照
		PCR検査を受けない場合	▶ 発熱症状が治まるまで出席停止
8	家族等同居者に未診断の発 熱などの症状がある場合 ※接触のない同居者は除く ※コロナの疑いがないもの は除く	家族がPCR検査を受ける場合	検査結果が陽性の場合
		家族がPCR検査を受けない場合	家族の発熱症状が治まるまで出席停止 家族の発熱症状が治まれば登校可

What to do if a pupil, school staff member and/or their family member is infected with COVID-19

Tsukuba City As of October 3,2022 If no instruction is given by the doctor or public health center, they must self-isolate at home or other place for the following They must self-isolate at home number of days as a general rule: If a pupil or school staff They can go to school after the self-isolation according to the instruction of · With symptoms: Eight days including the day when the symptoms developed. Also 24 hours must pass after the nember is found to be their doctor or public health period is over. symptoms have subsided. infected with the virus: center. · Without symptoms: Eight days including the day of testing. However, if an antigen test result shows negative on the fifth day, they can go to school from the sixth day. The classroom will be temporarily closed Everyone in the classroom can go to school once the temporal closure is lifted. If more than one person has been The club activity will be temporarily suspended. If mass infection is suspected infected or developed a fever: The club activity may resume once the temporal suspension is lifted. where multiple cases are If the result shows positive, please refer to the section (1) above. Temporal classroom closure and PCR testing for the first to third grade confirmed in a classroom or after-If multiple people have been infected Temporal classroom closure and antigen testing for the fourth to ninth grade If the result shows negative, they can go to school and/or club activity according to or developed a fever: school activity club: Temporal suspension and antigen testing for the club activity instructions from school. The grade will be If the infection is suspected to have spread throughout the entire The temporary closure of the grade will be lifted if the temporarily closed classrooms temporarily grade where more than one classroom in the same grade is reopen and the infection in the grade shows downward trend. closed. If the infection is suspected to temporarily closed. (3) have spread outside the specific classroom: The school will be The temporary closure of the school will be lifted if the temporarily closed grades reopen If the infection is suspected to have spread throughout the entire school temporarily where more than one grade in the same school is temporarily closed. and the infection in the school shows downward trend. closed. If a pupil or school staff They are required to visit a healthcare facility if they develop symptoms such as a fever They must self-isolate at home for the They must self-isolate at home according to the instruction of their during the self-isolation period. member has had a close period indicated by the public health doctor or public health center. contact with someone infected If their family member or someone living with them is tested positive center. (As a general rule, it is six days If they do not develop any symptoms during the self-isolation period, and if they are tested with COVID-19, they will be considered as a close contact. However, including the day when they last had a with the virus: negative on the second and third day using antigen test kit, they can go to school from the third does not apply if they avoided contact at home. close contact.) If a pupil or school staff member Please refer to the section (1) above. has taken a PCR test due to a If the result shows positive: suspected infection (excluding cases They must self-isolate at home until where they have taken a test for a the test result is confirmed. reason other than a suspected If the result shows negative: They can go to school as usual. infection): They can go to school as long as they do Please refer to the section (4) above. If the result shows positive: not develop any symptoms, when their family member who has had a close If the family member of a pupil contact is going to be tested for COVID-They can go to school as usual. or school staff member is If the result shows negative: suspected to have had a close contact with someone infected They can go to school as long as they do with the virus: not develop any symptoms while monitoring their health condition, if their They must continue to monitor their health. family member is not going to be tested for COVID-19. If a pupil or school staff member If they are going to take a PCR test at a Please refer to the section (5) above. has developed symptoms such as a healthcare facility: symptoms are confirmed not to be They cannot go to school until their fever disappears.

7 fever (excluding cases where their related to COVID-19):

If the family member of a pupil or

symptoms such as a fever and has

school staff member develops

not been diagnosed (excluding

cases where they avoided close contact with the family member or

the symptoms are confirmed not

to be related to COVID-19):

If they are not going to take a PCR test:

If the family member is going to take a

PCR test:

They cannot come to school until the test result is confirmed.

If the result shows positive:

Please refer to the section (4) above

If the result shows negative:

They can go to school as usual.

If the family member is not going to take a PCR test:

They cannot come to school until their family member's fever disappears.

They can go to school after their family member's fever disappears.
