**Notice:  
Japanese Encephalitis Vaccination  
(1<sup>st</sup> term Booster Shot)**

Vaccination period for 1<sup>st</sup> term booster shot is the day before reaching 7 years and 6 months old

This is a notice to parents with a child aged 4 years, whose 1<sup>st</sup> term booster shot has not been confirmed by Tsukuba City.

Please kindly note that if your child has already completed the vaccination in other municipalities before moving to Tsukuba City, this vaccination is not applicable.

**<Contact>**

**Tsukuba City Health Promotion Division**  
**Tel:029-883-1111 (Main number)**

**Japanese Encephalitis (JE) requires a total of 3 doses for the first term: the first 2 doses and a booster shot.**

If your child has not received the booster shot, please have your child vaccinated as soon as you can.

- ◆ **Vaccination period for the booster shot:**  
**Until the day before your child turns 7 years and 6 months old.**

※Only for residents registered in Tsukuba City on the vaccination day.

The required vaccination period may vary depending on the number of doses your child has already received. However, it will take about 7 months for the shortest plan of 3 doses of JE Vaccination 1<sup>st</sup> term. We recommend planning your child's vaccination within the vaccination period above.

- ◆ **What to bring:**  
**Pre-vaccination questionnaire (*Yoshin hyo*) of the JE Vaccination, Maternal and Child Health Handbook (*Boshi techo*), My Number Health Insurance Card or other ID that verifies age and address.**

※Please contact us if you do not have the pre-vaccination questionnaire sheet.

- ◆ **Vaccination Location**

Please make a reservation in advance.

- ① Tsukuba City Vaccination Partner Clinics
- ② Ibaraki Prefecture Vaccination Partner Clinics
- ③ Other medical institutions (prior application required)\*

\*If vaccinated without prior application, you will need to pay the full cost. For details, please visit the city website.
