

Notice: Japanese Encephalitis Vaccination (2nd term)

Children are eligible for the Japanese Encephalitis (JE) Vaccination (2nd term). Children must be vaccinated 1st term (3 doses) and 2nd term (1 dose). Before the vaccinations, please carefully read the instruction 'About the Japanese Encephalitis Vaccination' on the back of this paper, and understand the necessity of the vaccine and possible side effects and let have your child/children vaccinated when they are in good health.

Provisional Translation

Eligibility

Children who are registered residents in Tsukuba City on the day of vaccination, at least 9 years old and less than 13 years old

Where

Please make an appointment in advance.

- ①The cooperative medical institutions for vaccination affiliated with the Tsukuba City Medical Association.
②Medical institutions affiliated with the Ibaraki Prefecture Medical Association.
③Medical institutions other than those mentioned above. (Apply beforehand)*1

Note1: If you receive a vaccination without applying for it, you may have to pay the full amount yourself.

For more details, please visit the website 「協力医療機関以外で定期予防接種を受ける場合」 When receiving routine vaccinations outside of designated medical institutions (only available in Japanese).

Fee

Free

* Please note that if children become older than the eligible age, you will be required to pay all the amount (about 7,000 yen) by yourself.

Cooperating medical institutions for ①②

What to bring

Please bring the following to the medical institution on the day of the vaccination:

- Please bring the following to the medical institution on the day of vaccination.
1. Maternal and Child Health Handbook (boshi kenko techo)
2. Pre-vaccination questionnaire for DT vaccination (enclosed)
3. Health insurance card or documents for verifying your child's age and address.
4. Letter of authorization (Only in cases where the presence of a parent or a guardian is unavoidably impossible)

Others

- If your child is not registered as a resident of Tsukuba City on the day of vaccination (due to moving outside the city, etc.), it may not be eligible for subsidy, and the full cost may be self-funded.
Please confirm the vaccination record in the Maternal and Child Health Handbook. Children who have already been vaccinated, including those who were vaccinated before moving in or those who chose to be vaccinated voluntarily, may also receive notifications. If your child has already received DT vaccination, please discard the notification.
On the day of the vaccination, please visit the medical institution with your child. If you cannot take your child for vaccination on your own, your representative must bring your letter of authorization to the clinic. For more details, please visit our city website or contact us.

Please visit the Tsukuba City website, Life Plan Sukoyaka, 'Vaccination and Children's Health' or the website of the Ministry of Health, Labour and Welfare for more information of vaccinations.

Contact: Vaccination and Infection Control Management Office 029-883-1111

Please read “Vaccination and children’s Health” carefully and fully understand the effects and side effects of DT Vaccination.

Be sure to confirm your child’s vaccination record in the Mother and Child Health Handbook before receiving the vaccination.

2 Relief System for Injury to Health with Vaccination

When individuals who have received routine vaccinations under the Immunization Act experience health damage, and the Minister of Health, Labor and Welfare certifies a causal relationship with the specific vaccination, benefits will be provided by the municipality. If you need to apply for the relief system, please consult the doctor who administered the vaccination or contact Tsukuba City.
